To the Board of Selectmen
Town of Greenwood, Maine

In planning and performing our audit of the general purpose financial statements of the Town of Greenwood, Maine for the year ended December 31, 1996, we considered its internal control structure in order to determine our auditing procedures for the purpose of expressing our opinion on the general purpose financial statements and not to provide assurance on the internal control structure. However, we noted certain matters involving the internal control structure and its operation that we consider to be reportable conditions under standards established by the American Institute of Certified Public Accountants. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control structure that, in our judgment, could adversely affect the Town of Greenwood's ability to record, process, summarize and report financial data consistent with the assertions of management in the general purpose financial statements.

A material weakness is a reportable condition in which the design or operation of one or more of the internal control structure elements does not reduce, to a relatively low level, the risk that errors or irregularities in amounts that would be material in relation to the general purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses as defined above. However, we noted the following reportable conditions that we believe to be material weaknesses.

This report is intended solely for the information and use of the Town of Greenwood, Maine's management, and others within the administration. This restriction is not intended to limit distribution of this report, which is a matter of public record.

TOWN OF GREENWOOD, MAINE
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1996

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Town of Greenwood, Maine conform to generally accepted accounting principles as applicable to government units except for accounting for property, plant and equipment.

A. Financial Reporting Entity

Greenwood, Maine is organized as a Town in which citizens elect at large a three member board of selectmen which appoints an administrator. The accompanying financial statements present the Town's primary government units over which the Town exercises significant influence.

B. Funds

The accounts of the Town are organized into funds, each of which is considered to be a separate accounting entity. The Town has the following fund types:

Governmental Funds are used to account for the Town's general government activities. Governmental fund types use the flow of current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting revenues are recognized when susceptible to accrual (i.e., when they are "measurable and available"). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The Town considers all revenues available if they are collected within 60 days after year end. Expenditures are recorded when the related fund liability is incurred.

Property taxes, investment earnings and charges for services are susceptible to accrual. Other receipts and taxes become measurable and available when cash is received by the government and are recognized as revenue at that time.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Funds

Governmental funds include the following fund types:

The general fund is the general operating fund of the Town. It is used to account for all financial resources except those required to be accounted for in other funds.

The capital project funds account for the acquisition or construction of major capital projects or assets not being financed by proprietary or nonexpendable trust funds.

Fiduciary Funds are used to account for assets held by the Town in a trustee capacity or as an agent for individuals, private organizations, other governmental units, and/or other funds. Trust funds account for assets held by the Town under the terms of a formal trust agreement.

The nonexpendable trust funds are accounted for in essentially the same manner as the proprietary funds, using the same measurement focus and basis of accounting. Nonexpendable trust funds account for assets of which the principal may not be spent.

C. Total Columns

Total columns on the combined statements are captioned "memo only" to indicate that they are presented only to aid in financial analysis. Interfund eliminations have not been made in the aggregation of this date; and it is therefore, not comparable to a consolidation.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1996

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Budget Law and Practice

The selectmen submit an annual budget to the citizens in accordance with municipal law. In March the citizens adopt annual appropriated budgets for Town operating funds. These include general, highway, solid waste, police, fire and reserve funds. Once approved, the citizens may legally amend the adopted budget by vote at special town meetings.

The budgets are prepared on the cash and expenditures basis. Revenues are budgeted in the year the receipt is expected; and expenditures are budgeted in the year that the disbursements are anticipated.

E. Encumbrances

Encumbrance accounting under which purchase orders, contracts, or other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation is not employed by the Town of Greenwood.

NOTE 2 - CASH

At year end the Town's carrying amount of deposits was \$527,925 and the bank balance was \$411,989. Of the bank balance \$411,989 was covered by federal depository insurance or by collateral held by the Town's agent in the Town's name.

NOTE 3 - PROPERTY TAXES

The Town's property tax for the current year was levied on August 20, 1996 on the assessed value listed as of April 1, 1996 for all real and personal property located in the Town. Taxes were due December 10, 1996 with interest at the rate of 10% per year assessed on unpaid taxes after December 31, 1996. Liens on 1995 unpaid property taxes were placed on July 25, 1996.

NOTE 9 - RISK MANAGEMENT

The Town is exposed to various risks of loss related to theft of, damage to and destruction of assets, errors and omissions and natural disasters for which the Town is insured. Workers compensation claims are insured with the Maine Municipal Association. Settlement amounts on any claims have not exceeded insurance coverage for the current year or the three prior years.

NOTE 10 - PENSION PLAN

All Town employees are covered under Social Security. No other formal plan is in place.

NOTE 11 - OTHER RECEIVABLES

The Town intends to make a claim in the amount of \$26,603 with its fidelity bondholder. The bond, with a \$100,000 limit, provides insurance coverage for missing or misappropriated funds.
